SUBJECTS

Abuse, *see* Aggression; Alcohol abuse; Assault
Academic achievement
  failure a consequence of college drinking, 5, 18, 92
  strategies to improve excellence, 201
Access to alcohol, 19
  reducing commercial, 197-98
  reducing social, 195-96
Achievement domain transitions, 63-64
  school transitions, 63
  work transitions, 64
Acquaintance rape, a consequence of college drinking, 19
Activities, influencing college drinking, 47-48
Acute health consequences, 18
Acute receptivity to alcohol, 74-75
Adolescence, 71-73
  behavioral characteristics of, 72
  hormonal concomitants of, 71-72
  neural alterations during, 72-73
Adolescents
  alcohol use and heavy drinking among, 76
    developmental perspective on, 6-7, 54-70
    prevalence of, 73-74
  brain function of, and college drinkers' propensity to use and misuse alcohol, 7, 71-81
  effect of alcohol advertising on, 10-11, 173-81
  stress in, 75-76
Adult Children of Alcoholics, 156-57
Adult hypocrisy, children's identification of, 61-62
Advertising of alcohol (*see also* Mass media campaigns)
  bans on, 175-76
  effect on youth, 10-11, 173-81
  time effects of, 175
Advocacy, media campaigns promoting, 184-85
Affiliation domain transitions, 62-63
  peer relationships, 62
  relationships with parents, 62
  romantic relationships, 63
  sexual relationships, 63
  sibling influences, 62
Age limits, *see* Minimum legal drinking age (MLDA) laws
Age-related changes (*see also* Adolescents)
  in alcohol outcome expectancies, 61
Aggression
  alcohol-related, during the college years, 8, 129-39
  general theories of, 131-32
AIDS, *see* HIV/AIDS
AIDS Prevention for Pediatric Life Enrichment, 237
Alcohol (*see also* Drinking; Ethanol)
  acute receptivity to, 74-75
  advertising, effect on youth, 10-11, 173-81
  controlling distribution of, 198-99
  "narrowing effect" on attention, 132
  reducing commercial access to, 197-98
  reducing social access to, 195-96
  as a sexual signal, 121-22
  strategies to de-emphasize role of, 200-201
  type and dose, contextual variables in, 135-36
Alcohol abuse
  among Children of Alcoholics, 41-42
  in collegiate contexts, social norms and the prevention of, 10, 164-72
  consequences of, in college populations, a review of research on, 7, 91-100
  propensity to, biological basis of, 7, 71-81
  relationship to aggression, during the college years, 8, 129-39
  relationship to sexual assault, among college students, 8, 118-28
  typology for campus-based prevention of, environmental management strategies, 9, 140-47
Alcohol awareness weeks, 141
Alcohol Beverage Control Commission, 234
Alcohol control measures
  minimum legal drinking age (MLDA) laws, 11-12, 194-98, 206-25
  price of alcohol, 199-200
  where, when and how alcohol is distributed, 198-99
  where alcohol is consumed, 200
Alcohol environment, *see* Environmental management strategies
Alcohol expectancies
  age-related changes in, 61
  effect of advertising on, 174-75
  individual variations in, 134
  influence on college drinking, 45-46, 120-21

Alcohol-focused skills training, specific, 152-53
Alcohol poisoning, 141
  a consequence of college drinking, 5
Alcohol servers, training, 197
Alcoholism Task Force on College Drinking, 5-6
Alcoholisms, varieties of, 50
Anecdotal reports, of college drinking, 5
Anhedonia, 72
Assault (*see also* Sexual assault)
  a consequence of college drinking, 5
Athlete drinkers, 85, 167
  impaired performance in, 94-95
  interventions with, 157
Attention, alcohol's "narrowing effect" on, 132
Awareness
  of college drinking, 5, 23, 82
  programs for increasing, 149, 152
  stage in a public health campaign, 186

BAC, *see* Blood alcohol concentration
BACCHUS/GAMMA Peer Education Network, 142
Bans, on alcohol advertising, 175-76, 190
Behavioral characteristics, of adolescence, 72
Behavioral consequences of drinking, 18
Behavioral property variables, 85-87
Behavioral skills, stage in a public health campaign, 186
Beliefs about alcohol, *see* Alcohol expectancies
Biological factors
  basis of college drinkers' propensity to use and misuse alcohol, 7, 71-81
  individual variations in, 135
  measures of, 17
Black drinkers, 32-33
Blackouts, 93
  a consequence of college drinking, 5
Blood alcohol concentration (BAC), 17
  limb effects, contextual variables in, 135
Brain development, ongoing processes of, and adolescent alcohol exposure, 74-75
Brain function, in adolescents, and the college drinker's propensity to use and misuse alcohol, 7, 71-81
Brand capital, theory of, 174
Brief interventions
  to increase service entry and retention, 159
  motivational, 154-56

CAGE, 19
California Psychological Inventory, 43
Campaigns, *see* Mass media campaigns
Campus administrators' survey, 145-46
  current funding and staff levels, 146
  data collection and research, 146
  prevention infrastructure, 146
Campus-based alcohol prevention, typology for, environmental management strategies, 9, 140-47
Campus community property variables, 87-88
  outlet density and drinking venues, 87
  pricing, 87
Campus leaders, considerations for, 201-2
Campus newspapers, 201
Cardiovascular risk reduction projects, 227-31
Carnegie Foundation for the Advancement of Teaching, 15, 140
CAS, *see* College Alcohol Study
Causal models, 20

CDC AIDS Community Demonstration Projects, 237
Celebrity use, in counteradvertising campaigns, 187
Center for Media Education, 177
Center for Science in the Public Interest, 184
Center for Substance Abuse Prevention, 235-36
Centers for Disease Control and Prevention, 18
Century Council, 141
Chance Events Model, of substance abuse, 60, 65
Children of Alcoholics (COAs), Adult, 156-57
Chronic trajectory group, of frequent heavy drinkers, 56-57
Citizenship, strategies to improve, 201
COAs, *see* Children of Alcoholics
Cocaine use, 34-37
Cognitive-behavioral skills-based programs, 152-54
  general life skills training/lifestyle balance, 154
  multicomponent alcohol skills training, 153-54
  specific alcohol-focused skills training, 152-53
Cognitive models, of alcohol and aggression, 132-33
College Alcohol Study (CAS), 16, 18, 24-26, 28, 33, 38-39, 93
College Alcohol Survey, 93
College drinking
  and aggression, 8, 129-39
  and alcohol-related sexual assault, 8, 118-28
  awareness of, 5, 23, 82
  college factors that influence, 7, 82-90
  consequences of, a review of research on, 7, 91-100
  contexts and consequences of, 14-139
  epidemiology of, 6, 23-39
  field studies of, 17
  gender differences in, 30
    trends in, 30-32
  high-risk, role of mass media campaigns in reducing, 11, 182-92
  identification, referral and recruitment strategies for, 157-60
  implications of comprehensive community interventions to promote health, 12, 226-40
  "normalizing," 142
  prevention and treatment of, 140-240
  prevention of, social norms and, 10, 164-72
  problematic, individual-focused strategies to reduce, 10, 148-63
  propensity to use and misuse alcohol, biological basis of, 7, 71-81
  race/ethnic differences in, 32-33
    trends in, 33
  reducing, environmental policies for, 11, 193-205
  regional differences in, 33
  and risky sexual behavior, 7-8, 101-17
  sharpening the focus on, 6, 14-22
  student factors, individual variation in, 6, 40-53
  traditions and customs involving, 15-16
  trends in, 26-32
College drug use, epidemiology of, 6, 23-39, 222
College factors that influence drinking, 7, 82-90
  environmental, 15
College Parents of America, 141
Colleges and universities
  campus community property variables of, 87-88
  costs and damage to, from college drinking, 95-96
  organizational property variables of, 83-85
  as organizations, 15-16
  physical and behavioral property variables of, 85-87
  sampling, 16
  types of, 15
  women's, 84

Commercial access to alcohol, reducing, 197-98
Communities Mobilizing for Change, 233-34
Community interventions, *see* Comprehensive community interventions
Community leaders, considerations for, 201-2
Community Prevention Trial Program, 234-35
Competitive Media Reporting, 173
Complex sample designs, 20
Comprehensive college-community interventions, recommendations for creating, 13
Comprehensive community interventions, to promote health
  cardiovascular risk reduction projects, 227-31
  and college-age drinking problems, 12, 226-40
    Center for Substance Abuse Prevention, 235-36
    Communities Mobilizing for Change, 233-34
    Community Prevention Trial Program, 234-35
    Massachusetts Saving Lives Program, 235
    Midwestern Prevention Project, 232
    Project Northland, 232-33
  effectiveness of, 237-38
  sexual risk reduction programs, 236-37
    AIDS Prevention for Pediatric Life Enrichment, 237
    CDC AIDS Community Demonstration Projects, 237
    Mpowerment Project, 236-37
    School/Community Program for Sexual Risk Reduction among Teens, 237
  smoking risk reduction programs, 230-32
Conducting process and outcome evaluations, in public health campaigns, 188-89
Consequences
  acute health and behavioral, 18
  of college drinking, 5-9, 14-139
    damage to other people, 95
      fights and interpersonal violence, 5, 95
      hate-related incidents, 95
      noise disruptions, 95
      property damage and vandalism, 95
      sexual violence, 95
    damage to self, 92-95
      academic impairment, 5, 18, 92
      blackouts, 93
      impaired athletic performance, 94-95
      impaired driving, 94
      legal repercussions, 94
      personal injuries, 93
      physical illnesses, 93
      sexual coercion and acquaintance rape victimization, 94
      suicide, 93-94
      unintended and unprotected sexual activity, 93-94, 102-11
    institutional costs and damage, 95-96
    need for further research, 98-99
    patterns of damage, 96-98
      developmental and contextual effects, 97-98
      frequency of consequences for individuals, 97
      gender differences, 96
      perceptions of self as a problem drinker, 98
      racial and ethnic differences, 96-97
      time trends, 97
    recommendations regarding, 8-9
    review of research on, 7, 91-100
  of heavy drinking, reducing negative, 65
  information campaigns focusing on negative, 183
Constitutionality, of minimum legal drinking age laws, 219-20
Consumption levels, reducing among general college population, 198-200
  price of alcohol, 199-200
  where, when and how alcohol is distributed, 198-99
  where alcohol is consumed, 200
Contexts of college drinking, 5-9, 14-139
  recommendations regarding, 8-9
  training servers in, 197
Contextual effects, from college drinking, 97-98
Contextual variables, in the alcohol-aggression reaction, 135-36
  alcohol type and dose, 135-36
  blood alcohol concentration limb effects, 135
  provocation, 136
  social pressure, 136
Continuity, of risk and protective factors, 57-59
CORE Institute series, 18, 24, 85
  CORE Alcohol and Drug Survey, 18, 24-26, 30, 35, 38-39, 83, 85, 93-95, 167, 173
Cornell University, 184
Cost, *see* Price of alcohol
Counteradvertising, 175-77, 179
  celebrity use in, 187
Criminal consequences, of college drinking, 5, 19
Current Contents, 209
Curriculum infusion, 141
Customs involving drinking, 15-16

DA, *see* Dopamine systems
Damage patterns, 96-98
  developmental and contextual effects, 97-98
  frequency of consequences for individuals, 97
  gender differences, 96
  perceptions of self as a problem drinker, 98
  racial and ethnic differences, 96-97
  time trends, 97
Damage to other people, 95
  fights and interpersonal violence, 5, 95
  hate-related incidents, 95
  noise disruptions, 95
  property damage and vandalism, 95
  sexual violence, 95
Damage to self, 92-95
  academic impairment, 5, 18, 92
  blackouts, 93
  impaired athletic performance, 94-95
  impaired driving, 94
  legal repercussions, 94
  personal injuries, 93
  physical illnesses, 93
  sexual coercion and acquaintance rape victimization, 94
  suicide, 93-94
  unintended and unprotected sexual activity, 93-94
Dartmouth College, 142
Databases, electronic, 148, 206
Date rape, a consequence of college drinking, 19
Decision making, 61-62
  age-related changes in alcohol outcome expectancies, 61
  identification of adult hypocrisy, 61-62
  invulnerability, 61
  normative cognitive changes, 61
Decrease trajectory group, of frequent heavy drinkers, 56-57
Denial, 183
Developmental Mismatch Model, of substance abuse, 59, 64-65

Developmental perspective
on alcohol use, 97-98
and heavy drinking during adolescence and the transition to young adulthood, 6-7, 54-70
risk and protective factors from, 57
Developmental research
on programs and policies regarding college drinking, 64-65
balancing increased freedoms with increased responsibilities, 65
creating varied and developmentally relevant interventions, 65
intervention at the level of the context and the individual context match, 65
reducing negative consequences of heavy drinking, 65
on substance use etiology and intervention, 64
Developmental transitions
and alcohol use, 61-64
achievement domain transitions, 63-64
school transitions, 63
work transitions, 64
affiliation domain transitions, 62-63
peer relationships, 62
relationships with parents, 62
romantic relationships, 63
sexual relationships, 63
sibling influences, 62
identity domain transitions, 62
perspective taking and decision making, 61-62
age-related changes in alcohol outcome expectancies, 61
identification of adult hypocrisy, 61-62
invulnerability, 61
normative cognitive changes, 61
puberty and physical development, 61
facilitating, 64
and health risks, 58-61
conceptual models relating to substance use, 59-61
defining and conceptualizing, 58
discontinuity and continuity, 58-59
tasks and trajectories, 58
"Developmentally limited" alcoholism, 50
"Dirk" campaign, 183
Discontinuity issues, 58-59
Disinhibition model, of alcohol and aggression, 132
Dispositional aggressivity, individual variations in, 134
Distribution of alcohol
controlling hours of, 198-99
controlling manner of, 198-99
Division of Adolescent and School Health, Youth Risk Behavior Surveillance System, 25
Dopamine (DA) systems, 72-73
Drinking (*see also* Athlete drinkers; Black drinkers; College drinking; Hispanic drinkers; Problem drinker; White drinkers)
behavioral consequences of, 18
controlling venues for, 200, 221
and denial, 183
ecology of, 17
heavy
during adolescence and the transition to young adulthood, developmental perspective on, 6-7, 25-26, 54-70
frequent, 56-57
heavy episodic, 5, 18, 86--87
high-risk, among college students, role of mass media campaigns in reducing, 11, 182-92
measures of, 17-18
motives for, influence on college drinking, 44-45
safe alcohol consumption levels, 179
traditions and customs involving, 15-16
Drinking age laws, *see* Minimum legal drinking age (MLDA) laws
Drinking Context Scale, 47
Drinking games, influencing college drinking, 48
Drinking history, individual variations in, 134
Drinking venues, 87
training servers in, 197
Driving while intoxicated (DWI), 94
strategies to affect, 200, 213-15, 234-35
Drug Free Schools and Communities Act of 1986, 82
Drug Prevention in Higher Education Program, 24
Drug use, among American college students, epidemiology of, 6, 23-39, 222
DWI, *see* Driving while intoxicated

Ecology of drinking, 17
Educational/awareness programs, 149, 152
information/knowledge programs, 149
normative reeducation programs, 149, 152
values clarification programs, 149
Electronic databases, 148, 206
Emergency rooms, screening for problems, 159
Enforcement issues, 194, 196, 218
Environmental management strategies, 15, 19-20
for campus-based alcohol prevention
considerations for campus and community leaders, 201-2
considerations for researchers, 202
increasing effectiveness of minimum legal drinking age, 194-98
options and research findings, 11, 193-205
reducing consumption levels and risky alcohol use among general college population, 198-200
strategies to affect specific alcohol-related problems, 200
strategies to de-emphasize role of alcohol, 200-201
strategies to improve citizenship/academic excellence, 201
a typology for, 9, 140-47
Epidemiology, of alcohol and other drug use, among American college students, 6, 23-39
Episodic drinking, *see* Drinking
Equifinality, in risk and protective factors, 57
Ethanol
disruption of N-methyl-D-aspartate-mediated excitation, 74
ontogeny of responsivity to, 73-75
ETOH database, 14, 148, 206
Executive functioning, individual variations in, 134
Expectancies, *see* Alcohol expectancies
Expectancy model, of alcohol and aggression, 132
Extraversion/sociability measures, 43-44

Factors that influence drinking
college, 7, 15, 82-90
precollege, 15
student, individual variation in college drinking, 6, 40-53
supply-side, 19
Faculty, as normative group for students, 165-66, 170
Fairness Doctrine, 179
Family Educational Rights Privacy Act, 63
Family history, 15
influence on college drinking, 41-42
